## Partners In Industry

There are two committees comprised of both ECACO and Local Union 804 representatives. The first is the JATC (Joint Apprentice Training Committee). The purpose of the JATC is to implement policies and procedures for all apprentices, as well as review apprenticeship status. The committee also oversees all courses offered and needed to allow the apprentices to perform the tasks given.

The second committee is the LMCC (Labour Management Cooperation Committee). The purpose of the LMCC is to address and manage issues of mutual concern relating to market recovery. Contractual issues are not discussed in this forum. Both committees meet monthly.

The logo is a black square with white text. It reads 'IBEW 804 & ECACO' at the top, followed by 'PARTNERS IN INDUSTRY' in a larger, bold font, and 'CENTRAL ONTARIO' at the bottom.
